

Dr. Miles' Heart Cure

Cures a Prominent Attorney.

MR. R. C. PHELPS, the leading pension attorney of Belfast, N. Y., writes: "I was discharged from the army on account of ill health, and suffered from heart trouble ever since. I frequently had fainting and smothering spells. My form was bent as a man of 80. I constantly wear an overcoat, even in summer, for fear of taking cold. I could not attend to my business. My rest was broken by severe pains about the heart and left shoulder. Three years ago I commenced using Dr. Miles' Heart Cure, notwithstanding I had used so much patent medicine and taken drugs from doctors for years without being helped. Dr. Miles' Heart Cure restored me to health. It is truly a wonderful medicine and it affords me much pleasure to recommend this remedy to everyone."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle guaranteed or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

WATER AT MONTAUK

Charge That It Was Impure Originated With the Filter Men.

DR. FORWOOD TESTIFIES

Helen Gould Supplied a Number of Chefs For the Kitchens at Camp Wikoff—What Rations For the Sick Consisted Of—General Young's Experience in Cuba.

Washington, Nov. 18.—Before the war investigators yesterday Dr. Forwood declared that the complaints concerning the purity of the water at Montauk had originated with men who had filters and distilling apparatus for sale. The water was pure and plentiful.

Dr. Forwood said many physicians had come to the camp at the instance of the newspapers, generally for a compensation of \$50. Among these was Dr. Lee, who was a personal friend of his, and he had told the doctor to look the camp over and criticize whenever he found occasion for criticism. The doctor had written his article, making parts of it very flattering, but he was very

much disgusted after the appearance of the matter to find that all the complimentary portion of it had been expunged. Dr. Stimpson had spoken of the conduct of the kitchens. As a matter of fact the kitchens were in the most expert hands. Miss Helen Gould had supplied a number of chefs, and most of these were from the kitchens of the wealthiest people of New York city. He had talked with one of them who had been with W. H. Vanderbilt for more than three years. As a matter of fact, hospitals never were so abundantly supplied.

The army rations were supplemented by every thing that could be found in the larder of the Waldorf-Astoria, including roast turkey, pheasants, squabs, lambs, sheep, pigs, game of all kinds, pate de foie gras, mineral waters, the finest champagnes and liquors. At one time he had noticed eight barrels of brandy and a large number of cases of wine. There was so much apollinaris water that it was in the way and when a nurse came for a bottle they would offer her a case.

He said the newspaper men at the camp were gentlemen, but they appeared to be under orders to criticize the camp. He knew of two instances in which the reporters had received orders to "roast everything." He had told them not to spare where they found criticism justified.

In conclusion, Dr. Forwood said that many patients, who had been removed by their friends had often died and that in many instances their deaths were due to the kindness of those who had taken them in charge.

Major General Young. Major S. B. Young related in detail

his experience at Santiago and vicinity. He had landed at Daiquiri on June 21 and by the morning of the 23d his entire brigade had been put ashore. He had notified General Wheeler and had received orders to move on four or five miles and secure a good camp. He pushed on to Siboney. He asked Wheeler where the good camping ground was and he had replied that the Spaniards occupied it. "I then," said General Young, "asked permission to go out to see the ground, saying I would like to get it for our own troops, to which General Wheeler assented."

In accordance with this arrangement he moved out to fight the battle of Guasima, sending the volunteers—the rough riders—by one road, and the regulars by another. He had reconnoitered the Spanish camp with a glass for half an hour before the fight began, and he had attacked the Spaniards and not the Spaniards him.

"The report that the rough riders were allowed to be ambuscaded was due," he said, "entirely to the demoralized reporter and the demoralized adjutant of the regiment, who had left the service soon afterward."

General Young said he had occupied the enemy's camp that day, "and it was a very good camp," he added naively.

In reply to a question as to what aid he had secured from the Cubans in this fight, he replied none whatever. The Cuban guides had deserted him upon the first fire.

General Young said he had been the only man in the command at La Guasima who was mounted, and that he rode a mule. The wounded were carried back to Siboney and, while the hospital there was somewhat congested, the men were well attended to.

With this General Young's service in Cuba ceased, as he was taken down with fever on June 30 and sent back home.

TO ADJUST DIFFERENCES Anglo-American Commission Considering the Fishery Question.

Washington, Nov. 18.—The Anglo-American commission, now in session here to adjust differences between the United States and Canada, yesterday held a lengthy session upon the two subjects which are regarded as of most importance, namely, the North Atlantic fisheries and reciprocity. The fisheries question was practically taken up for the first time, and it was quite definitely understood that the position of the Canadian government was made clear as favorable to granting enlarged rights to American fishermen in Canadian waters of the North Atlantic, in return Canadian fish are admitted free of duty to American markets.

Concerning reciprocity it has now developed that while some progress is being made in considering certain articles which will be the basis of reciprocity, yet the American commissioners are likely to insist, as a preliminary to any reciprocity, that Canada shall wipe out that feature of her tariff law which gives Great Britain a preference of 25 per cent on all tariff duties.

Without the abolition of preferential rates to Great Britain the opinion is very positively expressed that a reciprocity agreement cannot be reached. The effect of these rates has been to reduce materially the sales of American cotton goods, hardware and other lines in Canada, and to increase the sales of British goods. One of the American experts said yesterday that the shipment of cotton cloth to Canada had fallen off from \$1,775,000 in 1897 to \$788,000 in 1898, a loss of about \$1,000,000, due to the fact that British cotton cloths received a preference of 25 per cent in the duties.

Madrid Press Urging the Government to Yield Quickly.

DEPRECATE TARDY ACTION

Spain in No Condition to Resume the Struggle and Can Expect no Assistance From Europe—Better Cease Wasting Money and Look After Domestic Affairs.

Madrid, Nov. 18.—Almost all the papers deprecate the dilatory proceedings at Paris, and are expressing their belief that the United States will decline arbitration and urging the government to yield quickly, since it is impossible for Spain to renew the struggle or to expect European assistance, and, furthermore, because it would be better to cease wasting money and to concentrate attention upon Spain's domestic affairs and the restoration of her finances.

At the cabinet council yesterday the minister of justice, Senor Groussard, declared that the fears inspired by the Carlists' agitation were absolutely groundless.

SANTIAGO NEWS.

General Wood Sits Down on the Money Sharks.

Santiago de Cuba, Nov. 18.—General Leonard Wood, military governor of the department of Santiago, has instructed General Ewars, who is in command of the brigade of negro regiments at San Luis, where the drunken affray occurred on Monday night, to move the camp five miles out from the town. It is probable that one of the regiments will be sent to an island near the entrance of Santiago harbor where there are no inhabitants.

Some of the local papers continue to abuse the Americans, catering to the lower elements and striving to create a feeling hostile to America. The better class of Cubans, of course, regret the affray, but they do not exaggerate the outrage after the fashion of the sensational press.

General Wood has temporarily suspended foreclosure proceedings, owing to the fact that the money "sharks" have been trying to force the collection of small amounts loaned during the war. He believes that the mortgagors should have a reasonable chance to redeem.

Having satisfied himself of the incompetence of the staff of meat and slaughterhouse inspectors that held over from the old regime, General Wood has dismissed the whole force and appointed new inspectors.

At Guantanamo General Perez, the mayor, now seems to be making an earnest effort to disband his former Cuban troops. Yesterday one man refused to lay down his arms and drew his weapon on a Cuban officer, who promptly killed him in self defense. The incident has had a good moral effect and the others of Perez's former command are now voluntarily relinquishing their arms preparatory to disbandment.

Will Finally Yield.

London, Nov. 18.—All the special dispatches to the London papers this morning from Paris express the belief that the Spanish commissioners will finally yield, although under protest, to the American demands.

The Largest One In the World to Be Presented to McKinley.

Toledo, Nov. 18.—The workmen of the Libbie Glass company of this city have just completed the largest cutglass bowl ever made in the world for presentation to President McKinley. It weighs over 75 pounds. E. D. Libby and a delegation of the workmen go to Washington on Tuesday, when the bowl will be presented.

Knights of Labor.

Chicago, Nov. 18.—The feature of yesterday's session of the Knights of Labor convention was an attack on Grand Master Workman Hicks by a New York delegate, who charged that the grand master had admitted an outsider to a meeting of the order, in contravention of the constitution. When the delegates learned that the outsider was Mrs. Hicks, who chanced to be present during a part of the meeting simply because it was held at the residence of Mr. Hicks, they quickly disposed of the grievance. The other business of the day was almost entirely of a routine character.

Schooner Wrecked.

New York, Nov. 18.—A message from Arthur Sewall & Co. of Bath, Me., was received by their agent here yesterday, saying that the 4-masted schooner Talofa, Captain Fletcher, from Guantanamo for Fort Tampa, in ballast, had been totally wrecked on Cozumel island off the east coast of Yucatan, and that the captain and seven of the men had arrived at Progreso, two of the men having been drowned.

CONGRESSMAN Griffith's plurality in the Fourth district is figured up to be 2,018.

ROLLO B. OGLESBY, of Plymouth, is announced as a candidate for clerk of the senate. He occupied that position in 1895.

FRED KIMBLY, of the Orleans Progress, is announced as a candidate for clerk for the house of representatives. Fred is all right, but there are others.

BOSS CROKER continues to let the democrats know that 16 to 1 won't do to make a campaign and that the democratic party ought to have some other reason for existence.

COLONEL BRYAN is sure that the democrats and populists should stand on that Chicago platform again. He wants that platform adopted again and then go further and nominate him once more. But what about Sewall and Watson? Would both of them be on the ticket for vice president? These things will have to be settled.

INDIANA is fast forging to the front in almost everything. In manufactures it is taking the lead. It now manufactures more than one-fourth of all the canned goods made in this country and is the first State in the Union in making glass. In literature it stands at the head. The two great novels of the century—"Ben Hur" and "When Knighthood Was in Flower, are both Indiana productions. In history, John Clark Ridpath, Jacob P. Dunn, Edward Eggleston, and William H. English stand near the head of American historians. In music we have Margaret Read and Birdie Blye. In oratory John L. Griffith, John W. Kern and Albert Beveridge, are in constant demand. In statecraft Benjamin Harrison and John W. Foster stand at the head. In science Prof. Wiley, John W. Coulter, Stanley Coulter and Amos W. Butler are known in this country and in Europe. In resources of natural wealth no other State can compare with Indiana. Great is the Hoosier State!—The Indianian.

JACK HORNER.

The Rich Plum That He Extracted From That Christmas Pie.

For the benefit of those who are not quite little folks Agnes Carr Sage, in Lippincott's Magazine, tells the origin and history of some famous nursery stories and rhymes, among them "The Pleasant History of Jack Horner," containing "His Witty Tricks and Pleasant Pranks," for so it is set forth in a very old chapbook, carefully preserved in the Bodleian library.

It appears that this worthy was steward to an abbot of Glastonbury. The good abbot learned that his majesty Henry VIII had seen fit to be indignant because the monks had built a kitchen which he could not burn down. Now, a king's indignation was dangerous and must be appeased. Therefore the abbot sent his steward, Jack Horner, to present the sovereign with a suitable peace offering. It took the form of a big and tempting looking pie, beneath the crust of which the transfer deeds of 12 manors were hidden.

But Master Jack had an eye for the profit of No. 1, and on the road he slyly lifted the crust and abstracted the deeds of the Manor of Wells. On his return, bringing the deeds, he plausibly explained that they had been given to him by the king; hence the rhyme:

Little Jack Horner
Sat in a corner of the wagon,
Eying his Christmas pie;
He put in his thumb
And pulled out a plum (the title deed),
Saying, "What a brave boy am I!"

The oldest shaped county among the 8,000 which go to make up the separate divisions of the various states is Warren county, Tenn. It lies almost exactly in the geographical center of the state mentioned and is about as near a perfect circle as any division of land could possibly be. The circle would be perfect but for the fact that there is a short stretch of the northern boundary line which follows a small stream for a short distance. It is bounded by Cannon, DeKalb, Goff, Grundy, Van Buren and Washington counties and is in no way remarkable except in shape.—St. Louis Republic.

UNDER THE DEEP SEA

HOW THE HEAVILY LADEN DIVER GOES ABOUT HIS WORK.

His Dress Weighs Nearly Two Hundred Pounds and is a Very Complicated Affair—The Signalman Holds the Diver's Life in His Hands.

The dress of a fully equipped diver weighs, in round numbers, 170 pounds. Taking off his everyday garb, the diver pulls on his thick underclothing—a white knitted sweater and trousers and a pair of ribbed stockings, also white. Should he intend to work in unusually deep water, he puts on two, sometimes three, sets of underclothing, to relieve the pressure of the water.

The woolen clothing donned, the next garment is the diving dress, measuring for a man of average height 5 feet 5 inches from the collar to the sole of the foot. This dress is made of solid sheet india rubber, covered on both sides with tanned twill. It has a double collar, the inner one to pull up round the neck, and the outer one, of red india rubber, to go over the breastplate and form a water tight joint. The cuffs also are of red india rubber and fit tightly round the wrists, making, when secured by the vulcanized india rubber rings, water tight joints, at the same time leaving the diver's hands free. In the outer collar 12 holes are bored for securing the breastplate. This is made of tinned copper. The outer edge is of brass and has 12 screws firmly fitted to it at intervals and projecting upward. These projections pass through the corresponding holes in the outer collar of the dress.

The band of the breastplate is in four sections, and the holes in the sections pass over the protecting screws and are secured in place by wing nuts or thumb-screws. A little careful consideration will make it clear that the dress is held in position by its rubber collar, with the aid of the breastplate flange and wing nuts.

The upper edge of the breastplate is fitted with a neck ring and a segmental screw. The use of this we shall presently explain. The boots are of stout leather, with leaden soles, and are secured over the instep by buckles and straps. The pair weighs 32 pounds—four pounds over the quarter of a hundredweight. The lead soles are firmly attached by copper rivets. The tongues of the boots are very wide. Boots intended for rough work are fitted with metal toe caps. Thus far—underclothing, dress, breastplate and boots—is our diver arrayed. He has now to be weighted. Lead weights of 40 pounds each, shield or heart shaped, are suspended back and front by means of gun metal clips and studs or tabs and lashings. He has now only to put on his helmet and to affix the air pipe.

The helmet, like the breastplate, is of tinned copper and is fitted with a segment bayonet screw at the neck, corresponding to that mentioned as belonging to the breastplate. The eighth of a turn, and the helmet is firmly secured, being both air and water tight. It has three strong plate glasses in brass frames, protected by guards, two oval at the sides and a round one in front. The front can be unscrewed to enable the diver to give orders without removing any other portion of the dress. An outlet valve is provided at the side or back of the helmet, which the diver can close should he wish to rise to the surface. This valve allows the breathed air to escape, yet prevents the entrance of water.

At the side of the front glass is a mechanical arrangement for getting rid of the excess of air, and it also assists when the back outlet valve is closed in regulating the expansion of the dress in rising to the surface. There is also an inlet valve, and this is constructed so as to allow the air to enter, but not to escape, in case of a break in the air pipe. The air pipe is made in lengths of from 45 to 60 feet, fitted together by means of gun metal joints. Securely connected with the helmet by means of the inlet valve and an elbow tube, the other end of the air pipe is fitted on to the nozzle of the air delivering diving pump.

His leather belt is buckled on, his knife, well sharpened and of strong steel, covered with a metal case to keep it dry and intact, is slung upon it, and after taking a drink, or a little light refreshment, the word is given, "All right," the face glass screwed on, and receiving a tap on the helmet as a signal to descend down he goes by rope or ladder, either of which must be weighted at the bottom.

Each diver while under water requires a signalman to hold his life line (that is, the line fastened round his waist by which he is hauled up) and the air pipe, both of which should be kept just taut, so that any movements of the diver may be felt. The signalman is of the utmost importance to the diver. Indeed, to use the words of a diver with whom we recently talked, he is his life. He must exercise the utmost vigilance all the time that the diver is down. Should the attendant give one pull on the life line it signifies, "How are you getting on?" If all is well, the diver gives an answering pull to reassure those above. Two pulls on the air pipe given by the diver mean "more air" (pump faster), and so on throughout the code of signals.

In addition to the signal code modern invention has adapted and utilized the telephone, and a speaking apparatus for men working at a depth of 60 feet or more is frequently used. The electric light also is now employed by divers working at a depth beyond 20 feet.—James Cassidy in St. Nicholas.

The Berbers of Morocco are an interesting blond race dispersed along the Atlas range. In the central Atlas they still call themselves "Berber" (plural Bereber), but the meaning of the word is uncertain. Perhaps it is the source of our word "barbarian."

COUNCIL MEETING.

Len Bartlett Takes His Seat As Councilman—Routine Business.

Council met in regular session last night, mayor and all councilmen present.

Minutes of last meeting read and Brethauer moved the adoption of same. Motion by Gibson to strike out that part of the minutes relating to the election of L. W. Bartlett to fill the vacancy caused by the resignation of Mr. Thompson. After an animated discussion and an opinion given by the city attorney, the motion of Gibson was voted down and the minutes adopted by a strict party vote, Mayor Mills voting to adopt the minutes.

DeGolyer, chairman of the grade committee reported that the members of the council or a part of them, had carefully examined the new brick pavement on South Chastnut street and recommended its acceptance. A special committee consisting of Huber, Shepard, DeGolyer, Binder and Bartlett, was appointed to hear any complaints that owners of abutting property might have.

DeGolyer reported that the grade committee had examined and ascertained that about a hundred trees should be planted about the different school buildings. He also said that he had a proposition from Henry Gaiser to plant the trees cut for 30 cts. each, which proposition the council accepted. The city attorney stated that it was not necessary to refer the matter of opening the alley through block 14 to the city commissioners, but a notice to the property owners to set their fences back to the line was sufficient.

City attorney also stated that he had examined the record and found that in November, 1893, the city had sold all the tile in what was known as the Woolen Mill ditch to W. N. McDonald, for a consideration and that if Mr. McDonald had not received the tile the city is liable to him for same. Referred to finance committee to investigate and report back to council. The street commissioner stated that he needed more lumber, which was ordered.

The fire chief reported that Frank Murray had been chosen to fill a vacancy in the fire department.

By members of the council and the health officer it was stated that there was much complaint about the unsanitary condition of the Arthur Jordan Company's poultry establishment. Mr. Woolery, a representative of the company, was present and stated that they were ready to satisfy the demands of the council and health officer. The place will be given immediate attention.

A petition for a light at the crossing of 4th and Mill streets was referred to committee on light.

A number of unpaid bills of assessments due E. G. Weathers for cement sidewalks were read and precepts ordered issued against the property in payment of same.

The clerk was ordered to notify the management of the ice plant to make some changes in drainage from their plant.

The city clerk ordered to notify the Panhandle Railroad Company to widen their crossing over Tipton street.

Street commissioner ordered to put in a new crossing at the mouth of the alley back of Milbous' drug store.

DeGolyer stated that much complaint was being made relative to the reconstruction of a slaughter house southeast of the city a short distance from the corporation line. Parties had been prevented from slaughtering there a few months ago and the opinion prevailed that it should not be begun again and a motion was passed to so notify the owner of the property.

The clerk directed to notify the water company to test all water plugs in the city.

Several other matters of minor importance were disposed of under the head of miscellaneous business.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land who are not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for Consumption, Coughs and Colds, have given away over ten million trial bottles of this great medicine and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, Bronchitis, Hoarseness and all diseases of the throat, Chest and Lungs are surely cured by it. Call on W. F. Peter, druggist and get a trial bottle free. Regular size 50c and \$1. Every bottle guaranteed or price refunded.

PERSONAL.

Mrs. D. M. Johnson returned yesterday to Aurora.

Edna, daughter of W. H. Wallace, has almost recovered from a long sickness.

Dr. Thomas J. Richards, after attending court for a week at Shelbyville, returned yesterday to Clearspring.

Mrs. G. H. Chapman and Miss Ella Chapman, of near Salem, came here last evening to visit friends near New Driftwood.

Mrs. John B. Thompson and children are here from Palestine, Ill., to join her husband at the Fessler Hotel, who is fireman on the B. & O. S. W.

John Kellar and wife, of near Oldtown, his son-in-law, Edmond Beldon, and wife, of Grassy Fork township, left here last night for Lexington, Okla. The latter moved there and the former will stay indefinitely.

Coughed 25 Years. I suffered for 25 years with a cough, and spent hundreds of dollars with doctors and for medicine to no avail until I used Dr. Bell's Pine-Tar-Honey. This remedy makes weak lungs strong. It has saved my life.—J. B. Rossell, Grantsburg, Ill.

DIED. W. R. England has a telephone message from Little York announcing the death of his wife's sister, Mrs. Elizabeth Cathcart, wife of Wm. Cathcart, at that place Thursday afternoon, November 17, 1898, of general debility aged forty seven years. She was well known in Seymour.

A Clever Trick. It certainly looks like it, but there is really no trick about it. Anybody can try it who has a Lame Back and Weak Kidneys, Malaria or Nervous troubles. We mean he can cure himself right away by taking Electric Bitters. This medicine tones up the whole system, acts as a stimulant to Liver and Kidneys, is a blood purifier and nerve tonic. It cures Constipation, Headache, Fainting Spells, Sleeplessness and Melancholy. It is purely vegetable, a mild laxative, and restores the system to its natural vigor. Try Electric Bitters and be convinced that it is a very safe and reliable remedy. Every bottle guaranteed. Only 50c a bottle at W. F. Peter's Drug Store.

Continuous Advertising. It costs the Royal Baking Powder Co. something like \$50,000 annually for advertising. Someone suggested to the company that it discontinue advertising one year, the baking powder was so well known and advertised, and place that amount, \$500,000 in the profits. The answer was that it undoubtedly cost the company three times that amount to get the product in its original channels again. This is a pretty good pointer to those business men who imagine they are making a great saving when they discontinue a \$4 or a \$6 a month advertisement a few months in dull season. It never pays to tear out a dam because the water is low.—Kimball Graphic.

Weak Eyes are Made Strong. Dim vision made clear, styles removed and granulated lids, or sore eyes of any kind speedily and effectually cured by the use of Sutherland's Eagle Eye Salve. It's put up in tubes, and sold on a guarantee by all good druggists.

Jimmie, son of Dr. W. E. Gerrish, is very proud on account of some character sent him by his uncle, Dr. M. F. Gerrish, from Savannah, Ga.

Broken's Arm is Saved. The best salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever sores, Tetters, Chapped hands, Chilblains, Corns, and all Skin Eruptions positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction or money refunded. Price 25 cents per bottle. For sale by W. F. Peter.

Lung Irritation. Is the forerunner to consumption. Bell's Pine-Tar-Honey will cure it and give such strength to the lungs that a cough or cold will not settle there. Twenty-five cents at all good drug stores.

THE HOOSIER BORGIA

Mrs. Rosenbarger On Trial For Alleged Poisoning of Her Son.

159TH INDIANA REGIMENT

Medical Examination of the Soldiers Completed—Major Peterson Resigns. Appellate Court Refuses to Revoke Its Decision on Pollution of Streams. New City Charters.

Princeton, Ind., Nov. 18.—The preliminary trial of Mrs. Rebecca A. Rosenbarger, charged with poisoning her son with intent to kill, for the purpose of securing insurance money, has commenced before Justice Conder. The father and son were pitted against mother and daughter. The defendant sat through the ordeal with a smile on her face most of the time.

The main testimony for the state was furnished by the son Alva. On cross-examination he stood firmly by his first statement. The sensation of the day was the former husband against the defendant. He told of her lack of motherly love. The story of the former poisoning was admitted after heated argument between the attorneys. The case was continued.

150TH INDIANA.

Medical Examination Completed. Joining the 161st—Captain Bundy. Indianapolis, Nov. 18.—The soldiers of the One Hundred and Fifty-ninth Indiana regiment have now all been examined by the medical officers and preparation for the muster out is nearing an end. About 300 of the regiment are desirous of enlisting in the One Hundred and Sixty-first to fill the quota of that regiment, and Captain Scott, who is here to secure recruits, is enlisting a number of them. They will be sent south as soon as the One Hundred and Fifty-ninth is mustered out. Major Tucker says he will be ready to begin paying the men on the 23d.

Major Matt R. Peterson, who was promoted from a first lieutenant in the regular army to the rank of major in the volunteer service, being assigned to the One Hundred and Sixty-first regiment, has resigned, having been appointed a captain in the regular service. Captain Bundy will probably be offered the majorship.

GONE WRONG.

William Coats, Justice of Peace at Marion, Disappears.

Marion, Ind., Nov. 18.—Another shortage of a county officer has been brought to light. Former Justice of the Peace William Coats has left town without leaving his address and his accounts to the county and to the Genesee Building and Loan association of Rochester, N. Y., for which he was collector, show a shortage. His account with the loan company is short \$700. He has paid no fees into the county treasury since May, 1895.

NEW CHARTERS.

Terre Haute May Call an Inter-City Conference Looking to Legislation.

Terre Haute, Ind., Nov. 18.—The special committee of the city council, appointed to report on a resolution that the city authorities ask other cities in the state to join in a movement to secure legislation by which cities of the size of Terre Haute may have new charters, is nearly ready to report. A strong opposition has arisen, however, and it may be that the council will decline to order the step toward an inter-city conference.

INDIANA Y. M. C. A.

Annual State Convention Being Held at Lafayette—Governor Speaks. Lafayette, Ind., Nov. 18.—The Indiana Y. M. C. A. state convention was opened last evening with addresses of welcome by Rev. Mr. Gary, Dr. Stone and Samuel Moore, which were responded to by the state president. Governor Mount delivered an address on "Results and Prospects."

Her Fall Resulted Fatally. Alexandria, Ind., Nov. 18.—Mrs. Floyd Herrick, 18 years old, died here yesterday from the effects of a bicycle fall received two weeks after her marriage, which occurred three months ago. She lost control of her wheel while passing a buggy on a high embankment, and was thrown into the river.

Football Forbidden.

Valparaiso, Ind., Nov. 18.—President Brown of the Northern Indiana Normal school has forbidden the students from playing football under penalty of expulsion, owing to a severe accident which befell a student last Saturday in the Valparaiso-Crown Point game.

Arnold Fuller's Will.

Dillsboro, Ind., Nov. 18.—The will of the late Arnold Fuller has been probated, and Frank M. Laws is made administrator, with a bond of \$25,000. There is a provision in the will which disinherits any beneficiary who tries to alter the will in any way.

Sergeant at Arms Bright.

Washington, Nov. 18.—The Post, discussing reorganization of the senate, says: "His great popularity may lead to the retention of Colonel Bright in the senate at arms office, as many Republicans would prefer him to any man of their own party."

Captain Linn Discharged.

Washington, Nov. 18.—Captain Linn, commissary department, has been discharged, his services being no longer required. He was appointed from Indiana.

Lung Irritation.

Is the forerunner to consumption. Bell's Pine-Tar-Honey will cure it and give such strength to the lungs that a cough or cold will not settle there. Twenty-five cents at all good drug stores.

Sure Sign of Croup.

Hoarseness in a child that is subject to croup is a sure indication of the approach of the disease. If Chamberlain's Cough Remedy is given as soon as the child becomes hoarse, or even after the croupy cough has appeared, it will prevent the attack. Many mothers who have croupy children always keep this remedy on hand and find that it saves them much trouble and worry. It can always be depended upon and is pleasant to take. For sale by C. W. Milbous.

In 1887 Mr. Thomas McIntosh of Allen-

town, Tenn., had an attack of dysentery which became chronic. "I was treated by the best physicians in East Tennessee without a cure," he says. "Finally tried Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using about twelve bottles I was cured sound and well." For sale by C. W. Milbous.

We give no rewards, an offer of this

kind is the measure of deception. Our plan is to give every one a chance to try the merit of Ely's Cream Balm—the original Balm for the cure of Catarrh, Hay Fever and Cold in the Head, by mailing for 10 cents a trial size to test its curative powers. We mail the 50 cent size also and the druggist keeps it. Test it and you are sure to continue the treatment. Relief is immediate and a cure follows. Ely Brothers, 56 Warren Street, New York.

One and One Third Thanksgiving Rates.

Via B. & O. S. W. R'y. one and one-third fare for the round trip within a radius of 150 miles from selling point. Tickets will be sold on November 24th good returning to and including November 25th, 1898. J. P. HOSAN, Ticket Agent.

What do the Children Drink.

Don't give them tea or coffee. Have you tried the new food drink called GRAIN-O? It is delicious and nourishing and takes the place of coffee. The more you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and when properly prepared tastes like the choice grades of coffee but costs about 1/4 as much. All grocers sell it. 15c and 25c.

The Best Finster.

A piece of flannel dampened with Chamberlain's Pain Balm and bound on to the affected parts is superior to any plaster. When troubled with a pain in the chest or side, or a lame back, give it a trial. You are certain to be more than pleased with the prompt relief which it affords. Pain Balm is also a certain cure for rheumatism. For sale by C. W. Milbous.

Have You a Son, Brother

Husband or Lover in the Army or Navy? Mail him today a 25c. package of Allen's Foot-Ease, a powder for the feet. All who march, walk or stand need it. It cures aching, tired, sore swollen, sweating feet, and makes hot, tight or new shoes. Feet can't blister, get sore or callous where Allen's Foot-Ease is used. 100 testimonials. All druggist and shoe stores sell, 25c Sample sent Free. Address Allen S. Olmsted, Le Roy, N. Y.

You are making a great mistake in not sending for a 10 cent trial size of Ely's Cream Balm. It is a specific for Catarrh and cold in the head. We mail it, or the 50 cents size. Druggists all keep it. Ely Brothers, 56 Warren Street, New York.

Catarrh caused difficulty in speaking and to a great extent loss of hearing. By the use of Ely's Cream Balm dropping of mucus has ceased, voice and hearing have greatly improved.—J. W. Davison, Atty at Law, Monmouth, Ill.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

It is impossible to promise particular features that will appear in the "AMERICAN MONTHLY" during the coming year, for it is, as the Bookman says, "a great monthly newspaper." As such, it prints for its readers an illustrated account of the notable things which make the history of the month, of the political, the economic, and literary happenings which are of value to intelligent men and women. The Editor's "Progress of the World" tells succinctly an illustrated story of the month. The "Leading Articles" give the best thought and information of the current magazines in five continents; the contributed articles furnish the character sketches of the man of the month, and give timely discussions by authorities on any question of immediate serious import.

The result of this comprehensive effort to edit in one monthly volume the information needed by intelligent people of "live" instincts is best gauged in the opinions which the readers of the AMERICAN MONTHLY have seen fit to express. These are thinking business men, clergymen, editors, lawyers, professors, engineers, the wide-awake women of America. They write that the AMERICAN MONTHLY "is indispensable"; "is simply invaluable"; "is a generous library in itself"; "is a historical cyclopedia of the world"; "the best means of aid for a busy man"; "the best periodical of the kind we have ever had"; "a triumph of editorial genius"; "the world under a field-glass," etc., etc.
